

Installing Lightroom Presets

Lightroom Classic

1. Open Lightroom Classic and go to the Develop module.
2. On the left side notice the Presets section.
3. Click on the + icon at the top right of the Presets section.
4. Click on Import Presets.
5. Select the downloaded ZIP file.
6. Click Import.
7. You will find your new presets in the Greg's Portraits Presets group.

Lightroom

1. Open Lightroom.
2. Select File -> Import Profiles & Presets from the menu bar.
3. Select the downloaded ZIP file.
4. Click Import.
5. You will find your new presets in the Greg's Portraits Presets group.

Lightroom Mobile via Lightroom

1. Install your downloaded presets using the Lightroom (not Lightroom Classic) method above.
2. When you open Lightroom Mobile your presets should sync automatically via the cloud.

Lightroom Mobile using the App

1. Open Lightroom on your phone.
2. Open any image.
3. From the bottom bar select Presets.
4. Tap on the three-dot menu on the top right and select Import Presets.
5. Find the downloaded ZIP file and tap it.
6. You will find your new presets in the Greg's Portraits Presets group.
